

Beautiful house for sale above Sivota in Lefkada

LEFKADA / LEFKAS

Description

A great option to consider should you be looking to invest in the booming Real Estate market of Lefkada. The house will be built above, the bay of Sivota, one of the most thought after location of Lefkada. Set on its 1500 sqm gated land, this 2 level house, of modern architectural design, will take full advantage of its location and will be using a lot of glass You enter the house from the upper level (72 sqm) which will host all the reception areas with direct access to the swimming pool. The 3 bedrooms with each their bathroom will be on the lower floor (82 sqm). As the house is not built yet, I don't wish to emphasise too much on the interior design as the new owner could still have his say. At this stage, building permission has been granted and the building work will start as soon as the pre-contract is signed and should last no more than 18 months
