

House walking distance to the beach in Tinos for sale

TINOS

Description

It is actually the best state to buy a house. The hard work has been done, remains the choices which mostly depends on your taste and budget. What is so unique about this property are several things : fantastic location, a huge plot, nearly flat, walking distance to the beach, sheltered from the strong winds, the fields below are not connected to any roads, which makes them unbuildable, close to the main town, no immediate neighbours. The house is planned to have 5 bedrooms and 5 bathrooms. You could still decide to divide it in 2 houses. You can still decide what heating system you wish to install, what kind of flooring, what type of windows, what kitchen, what bathrooms. It would take another 10 months to finish the house. The price mentioned is the house as it is now on the pictures. The price will increase along with the work in progress, and your choice will be as well reduced in the various internal amenities.
