

Skopelos traditional townhouse 114m2 with side sea view

SKOPELOS

Description

In the ancient area of Glossa Skopelos, a very well preserved traditional three-storey house with Macedonian influences built in 1939 is for sale. The lower level consists of a kitchen, a bathroom and a storage room. On the middle level there is an open plan living-dining room with a beautiful fireplace. On the third level you enter a spacious bedroom. There is the possibility to convert the large bedroom into 2 bedrooms. All three floors are connected by an internal wooden staircase and are characterised by their wooden beams. There is a WC on the balcony on the third floor. The property is hillside, so all levels have their own access to the street. The upper floor is on a road that can be accessed by car, while the middle and lower floors are on a paved road that cannot be accessed by car. There is a limited view of the sea from the front of the house, but three metres further up the paved road there is an unobstructed view of the sea and Skiathos.
