

Paros: For sale luxury house to be built in Santa Maria

Парос

Описание

A luxury house will be constructed in one of the most sought-after and beautiful areas of Paros. The property is situated in a landscape of dunes and bays with crystal-clear waters in the area of Santa Maria, just a 5-minute walk from the sea. The house, which will be 328m², will be built on a 4,000m² plot with a garden, swimming pool, basement, and first floor. On the ground floor, there will be two bedrooms with en suite bathrooms, one w/c, a comfortable living room, and a large dining room, as well as an open-plan kitchen. There is also the possibility for a fifth room. The living room is bright and opens onto the courtyard with the pool and onto a magnificent patio that resembles traditional Cycladic inner courtyards. Upstairs, there will be two more bedrooms with en suite bathrooms and terraces. The house will have a closed garage and open parking spaces for four cars. Crossing the dunes and the protected zone of the 'Natura 2000 Network,' we end up in the beautiful land of Santa Maria. It is a unique and stunning area of the island with Cycladic vegetation, wonderful beaches with crystal-clear blue waters, and is just 10 minutes from the cosmopolitan Naoussa
